If you wish to place orders for the different colour finishes of this range shown above, just replace the colour code in the middle of the product code with the colour code of your choice. For instance, in the product code FLV-CHR-1075NK, 'CHR' connotes Chrome Finish. If you wish to order the same product in Black Matt, replace 'CHR' with 'BLM'. Thus the product code will be FLV-BLM-1075NK.

The finishes depicted here are only indicative and may differ from that on the actual product.

Installed directly in the pipeline, the i Flush concealed flushing mechanism has multiple aesthetic and design advantages. It also provides a more appropriate mechanism of flushing, using the available water pressure to create better siphoning at the trap and superior clearing of waste.

i-Flush advantages

- Repeated flushing is possible, whereas concealed cisterns will definitely take time to fill up after flushing once
- i-Flush 32 mm can work efficiently at even low pressure (minimum 0.8 bar dynamics)
- Less noise in flushing
- Dual flush - Saves water, a green product
- Easy maintenance, control stop valve can be closed with the help of a T-type key provided along with the product
- Access to control cartridge by removing front actuation plate hence easy accessibility for maintenance

FLUSHING SYSTEMS

In order to bring you the latest and the most advanced bath products, Jaquar, a complete bathroom solutions provider, presents a design revolution—the superbly designed high quality Flush Plates. Besides modern designs that offer a sleek look to bath spaces and outstanding features like water - saving, easy access maintenance and anti-condensation, Jaquar Concealed Cisterns ensure that your bathrooms look spacious, clean and hygienic at all times.

Advantages

Saves Water: Impressive Dual Flush with a provision of 3/6 Ltr flush (Can be adjusted to 2/4 Ltrs)

Less Noise: Technically advanced, silent flush valve and fast-filling hydraulic float valve minimises the flushing sound during usage

Perfect Pan Cleaning: Heavy and even water discharge during every flush at every water pressure

No Damage from Condensation: Has anti-condensation lining wrapping the tank and supply bend to protect damage from masonry condensation

Easy to install and maintain: Jaquar's floor standing frames with concealed cisterns not only provide the benefits of easy, quick and perfect installation but also allow you to choose contemporary wall mounted sanitaryware of your choice for the bathroom.

Features

Easy Installation: Easy and hassle free installation as no chiselling of the wall is required

Load Bearing Capacity: Wall hung WC can be bolted simply and securely to the frame, which can take a load of up to 400 kg

Wide Compatibility of WC: Accommodates different types of wall hung WCs as holes are provided at different heights

Perfect Easy Alignment: Fixed inlet and outlet distance (135 mm from centre to centre) means perfect installation of WC, and pre-defined space for cistern results in perfect flushing every time

Adjustable Height: Adjustable legs (0-200 mm) to allow for variation in heights of WC, as required
