
WELLNESS

Stimulating Invigorating Restorative
Welcome To The Rejuvenation Zone

WHIRLPOOLS

Jaquar proudly presents its own range of whirlpools. Created by specialist designers from Europe and made in Jaquar's state-of-the-art manufacturing facilities. Jaquar whirlpools bring wellness into your home with great style and panache. Their jets project water in a flowing, circular motion, which offers a wide array of health benefits, including relaxation, improved blood circulation and sore muscle and joint relief. Whatever you desire, whether hot or cold water massages, long relaxing soaks or even chromotherapy, a Jaquar whirlpool gives you all these and more. Easy to use functions flawlessly switch water modes for your benefit.

Hydromassage

A gentle jet stream massage bath that stimulates from the surface of the skin onwards. The deep tissue massage stimulates blood vessels and nerve endings and relaxes your body's entire muscular system.

Air Massage

An infinite number of air bubbles provide a caressing sensation on the skin and allow the water's soothing warmth to penetrate deeper into the body's tissue. This sensational feeling, akin to weightlessness, is accompanied by a deep experience of healing warmth

Chromotherapy

The use of various coloured lights offers additional therapeutic benefits when used in conjunction with the whirlpool's massage. These include:

Green: has harmonious effects on the digestive system.

Yellow: radiates sun-like warmth on the body.

Blue: is calming and soothing and lets you float away into your dreams.

Red: infuses energy and vitality, giving lost strength to the entire system.

Features

The unbeatable product features are:

- Brilliant surface of acrylic
- Antibac® hygienic surface
- Increased chemical resistance
- High break strength
- Long life
- Excellent design possibilities
- Easyglide® layer
- Low specific weight
- Recyclable
- Repairable

BATHTUB LAYERS

Special transparent acrylic top layer has a high chemical resistance to: cleaning agents, perfumed foams, household detergents, body care products. It prevents surface defects, crazing/cracking, decolouration and colour fading

Special polymer for better mechanical resistance to impact and the temperature

Polyurethane layer is recyclable and usable ecological material with high insulation that retains the temperature for a longer period than FRP

Safety Vacuum Breaker

This is one of the important safety features installed in Jaquar whirlpools. In case of blockage in the suction point the motor switches off automatically.

No Bacteria Formation

Fresh water everytime. The water pipes connect via Y-shaped housings, creating a bow which ensures the complete drainage of water. Unpleasant odours and, even worse, bacteria are thus avoided.

Environment Friendly

The pipes are made from special Food Grade PVC. These pipes have an anti bacterial coating on the inner side so that even if some drops of water stay behind after the tub is drained, there won't be any bacteria formation in the water droplets.

3 Tier Test

Each and every Jaquar whirlpool goes through a functional test with hot water after which it is tested on a European test machine for earthing resistance, insulation test and a high voltage test.

Easy To Use

The electronic keypad control activates all the hydromassage functions, to regulate airpool intensity. All electronic parts can be installed and removed on site, thus making after-sales, what it should ideally be - a service !

Water Jets

The effectiveness of the hydromassage is enhanced by the water flow which can be adjusted in intensity and direction to suit personal needs, in order to gently massage delicate areas.

Airpool Jet

The airpool jets provide a gentle and delicate massage on your spine, which increases the sensation of warmth in the body and has beneficial effects on the back. The air bubbles open the insulation layer by oxygenating the body.

PMMA Sheet

Jaquar whirlpools are made of the highest grade of PMMA acrylic sheets.

Air Suction Valve

To enable suction of atmospheric air, and distribute it to each and every water jet to boost the jet pressure.

FREESTANDING BATHTUBS

Bathtubs are far more than just bathing. They can be an oasis of peace and calm. Jaquar's freestanding bathtubs set the mood perfectly for those precious moments of relaxation with their beautiful lines and curves, which invites you to step in and indulge yourself at the end of a long day. For those who have the luxury of space in their bathroom, a chic, freestanding Jaquar bathtub placed away from the walls makes a stunning statement of style and class.

BUILT-IN BATHTUBS

The more common and practical choice in bathtubs, the built-in or 'drop-in' bathtub is preferred wherever space is at a premium. Because they are placed adjacent to a wall and tucked away, built-in bathtubs are space-economical and can also offer additional storage on the surrounding ledges or the walls next to them. Perfect for placing aromatic candles while you soak in the bubble bath and unwind!

SPAS

Spas are a wonderful way to relax and restore equilibrium. Jaquar's spa models are technological marvels whose 'well-being circuits' comprise of various seats and a common footrest in the centre. Each seat is strategically fitted with different types of massage jets in various positions, oriented to massage different parts of the body. By moving from one seat to the other, one can enjoy a complete and satisfying massage that stimulates and relaxes all parts of the body. Cushioned headrests, ergonomic seats and a host of high performance features make this the ultimate home spa experience.

Features:

Touch Control Panel

- Next generation of touchscreen panel made by BALBOA in trapezoid shape
- Modern technology combined with high quality, impact resistant materials
- Responsive, colour touch screen
- Looks and feels like a glass display
- Impervious to water splashes or contamination.
- Simpler, more intuitive navigation

The Aquapure Clean Water System

This system makes safe, clean and clear water easy and affordable. With the Aquapure ozone generator for advanced water clarification and the Aquapure UV steriliser for removing water borne microbes.

Cabinet

- High density polystyrene cabinet
- Looks like wood, eco friendly
- Water Proof
- Weather Proof

Bio-Lok® Microbe Shield

In addition to Aristech Acrylics® excellent gloss and colour retention, our Bio-Lok® surfaces are naturally impervious to microbes, without the need for added chemicals.

Aristech Acrylic

Isn't it nice to know that your Jaquar Spa is made out of the best acrylic available. Rest easy knowing your spa's acrylic is manufactured to handle weather extremes.

The Shell. Matters Most.

Jaquar Spas use Aristech Acrylic shell with High Density PU Insulation foam, a process not found in most other spas. This process includes the curing of the shell in a temperature and humidity-controlled oven.

TOP LAYER: ARISTIC ACRYLIC

SECOND: GLASS FIBRE WITH RESIN

THIRD: HIGH DENSITY PU INSULATION FOAM

Hydro Flow Bearing-less Jets

Jaquar Spas made in ABS with Chrome finish, come with a 5 year jet warranty. Our Hydro flow jets are designed to provide the ultimate water massage experience. The options are extremely reliable even under heavy use thanks to Jaquar's premium quality.

Spa-bottom Drain & Valve

Built-in spa drain and release valve offers ultimate comfort and ease of operation for the user and during maintenance.

Jet Pressure Control

Conveniently located to be adjusted while you are in the spa, our jet pressure controllers allow you to 'dial up' your desired jet intensity so you can maximise relaxation and hydrotherapy.

SAUNAS

A Sauna is a bathhouse or room, usually made of wood, which uses dry heat to induce perspiration, with steam being produced by pouring water on heated stones. Perspiration or sweating is one of the main ways our bodies get rid of the traces of hundreds of toxins that accumulate inside us from pesticides, drugs and manmade chemicals. 15 minutes in a Jaquar sauna can help us sweat as much as we might otherwise do over an entire day or more. And the benefits of this aid in many medical conditions.

KUBIX 1750 × 1200 × 2100mm

JSA-NAW-T16120
